

You Are Invited

April 21, 2018 from 10:00AM - 2:00PM

Muhlenberg Township Water Authority will be holding the official “Ribbon Cutting” at the Elevated Water Tank located at the intersection of Stoudts Ferry Bridge Road and Tuckerton Road. The public is invited to join us for the event and have the opportunity to see what it took to paint the entire tank, as well as tour our Well #13 located on the same property. There will be displays by the Goodwill Fire Company showing how they use water. Inside the Fire Station you will be able to view a slide presentation of the tank painting project, as well as displays by other organizations, all having to do with the uses of water. Also on display will be some of the important vehicles we use to do our job of providing water to the residents of the Township. We hope you will join us for a few hours and learn more about water and its many uses.

- Opening Ceremony and Authority Board introduction
- Fire Department display
- Display on Source Water Protection
- Slide show of the painting process
- Slide show of MS4 (Storm Water and Water Conservation)
- Display of how water gets to your home from the Authority
- Games for the kids and adults
- Food will be available to support the Goodwill Fire Company
- Tour of the Authority’s Well #13
